- OUR STORY -

A vision of Mr. Prakas M. Dhaubhadel that materialised after a journey of years, believed in presenting Nepal in its true sense. With his profound familiarity with the history, tradition and hidden treasures of Bhaktapur, Mr. Dhaubhadel's commitment in preserving and restoring the heritage is visible in every nook and cranny of the boutique property.

Intricate wood carvings, brass and copper crafts, terracotta works and Mithila paintings accentuate the splendour of Hotel Heritage. The hotel was built with century old bricks from Rana palaces, stones from 17th Century and integrates reclaimed timber and antiques dating back from 16th century. The furniture used in the hotel are all hand crafted by local craftsmen mostly using reclaimed wood from traditional Newari houses, Rana royal palaces and their residences. It is without doubt that Hotel Heritage shares an unshakable link with the ancient city's rich past and reflects aristocratic elegance, classy architecture and Newari finesse.
